Q13-1A []   **Section:** Income and Assets

We now have some questions about your income and household spending in 2001. We appreciate that our questions are difficult to answer and sometimes seem intrusive.

However, the spending patterns of Americans are of national importance, and your answers to these questions provide us with the most reliable figures on your generation's spending habits. As with other questions in this survey, we want to reassure you that the information you provide to us is kept confidential.
